RESOLUTION R.422-082018
CORRECTIVE ACTION PLAN FOR THE 2017 AUDIT REPORT

*Recommendation #1:

Description: That the Township review its policy with regards to the budgeting of employee health benefits.

Analysis: The Township self-insures its health benefit programs which are administered by third parties. The Township also maintains an additional reserve fund in the event current budget year appropriations do not adequately cover claims liability.

Corrective Action: Absent state-imposed health benefits cost reforms, the Township needs to increase reserves and appropriations funding employee and retiree health benefits.

Implementation Date: Funding and Reserve levels will continue to be closely monitored. While appropriations for health benefit programs were increased in the 2018 Municipal Budget, additional funding will be requested for the 2019 Municipal Budget.

*Recommendation #2:

Description: That the use of confirming (purchase) orders for procurement cease.

Analysis: Confirming orders is when a commitment to purchase is made by an employee prior to submission of a requisition and which subverts the controls and review processes.

Corrective Action: Departments have been repeatedly counseled on this matter. The Township Administrator will underscore the importance of ceasing confirming orders at the next Directors Meeting.

Implementation Date: New procedures have been implemented to reduce the number of incidents where confirming orders are issued. This involves close coordination between the Accounts Payable and Purchasing offices.

Recommendation #3:

Description: That the Police and Fire divisions report their “official” records of sick and vacation days to the Human Resources office in order to have all records in a central location and to be integrated into the financial/human resources module (Edmunds) software.

Analysis: The Police Department utilizes a special program to set schedules and manage attendance (Police Officer Scheduling System – POSS) which has not been integrated into the Edmunds module. The Fire Department maintains their own original records.

Corrective Action: Effective January 1, 2019 the Township will be the utilizing UnicornHRO platform for processing payroll and managing human resource functions. Time and Attendance units will be placed in each Fire House and the information from the Police POSS system will be integrated into UnicornHRO.

Implementation Date: This new system launch date is scheduled for January 1, 2019.
