21 MILE BIKE TOUR

"While this is a recreational tour, it does include some hills and the length is a substantial distance that may not be appropriate for very new riders or young children. The police cannot hold the traffic back indefinitely so cyclists need to maintain an average pace of at least 8-10 miles per hour in order to complete the tour in the allotted time. Young children, ages 8 or younger, must be on a tandem bike or on a third-wheel attachment with an adult. All riders should carry a spare inner tube in case of a flat. Ride Marshalls with tools will be available to help change a flat at one of the rest stops."
