

# 7+ Hour S.T.E.M Crime Scene Class for Students

## 2021 VIRTUAL CLASSES

STEM principles relating to Forensics and solving Crime Scenes are explored. The presentation, labs and exercises will cover the following topics: Make a magnifying glass, take and identify and collect fingerprints, create & examine blood splatter patterns, identify an unknown power, chromatography, time-of-death exercises, cast footprints, and missing persons.... Each student gets a CSI Lab Kit to conduct the experiments. Current or former law enforcement Detectives will be teaching this class.
