

## ***Township of Edison: Sanitary Sewer System Connection Charges.***

### 1. **Trunk System Connection Charges** (Minimum Charge = \$840.00).

*Trunk sewer system* means gravity sewers, pumping stations and force mains used for the transportation of sewerage from collection systems to treatment facilities.

- (a) Residential dwelling units, including single-family detached units, multiple-family units, townhouses, condominiums and other permanent residential dwelling units: eight hundred forty (\$840.00) dollars per individual unit.
- (b) All commercial, light or restricted industrial properties: three thousand seven hundred twenty (\$3,720.00) dollars per gross acre.
- (c) All other nonresidential buildings, structures or facilities: estimated peak discharge rate, in gallons per minute (GPM), as determined by the Township Engineer, times one thousand three hundred eighty (\$1,380.00) dollars per GPM.

### 2. **Collection System Connection Charges** (Minimum Charge = \$2,100.00).

*Collector sewer system* means gravity sewers, within a specific area, used to collect sewage from service laterals of individual users and transport said sewerage to trunk sewer facilities.

- (a) Residential dwelling units, including single-family detached units, multiple-family units, townhouses, condominiums and other permanent residential dwelling units: two thousand one hundred (\$2,100.00) dollars per individual unit.
- (b) All nonresidential buildings, structures or facilities: twenty-one (\$21.00) dollars per front footage of the applicant's property, except in cases where the Township Engineer determines that the use of front footage is not reasonable. In such cases, the Township Engineer shall determine the proper connection charge, but shall not be less than \$2,100.00.

Note: Applicants for connection to the sanitary sewer system for **new** residential dwelling units, commercial/industrial buildings and other nonresidential structures where a developer or builder constructs collector sewers shall pay only the trunk system connection charge.

**Note 2: Refer to the Township of Edison Municipal Code, Chapter 27-9 CONNECTION CHARGES AND REGULATIONS.**

**Township of Edison – Department of Planning and Engineering**  
Edison Municipal Complex – 100 Municipal Boulevard, Edison, NJ 08817

**Sanitary Sewer System ‘Connection Charge’ –**
